beginning with an account of colour fundamentals and a history of colour theory the author explores the four dimensions of colour and their application to compositions in various media this book serves as a useful resource for painters photographers interior designers and craftspeople

more than 100 indigenous languages are spoken in mexico and central america each language partitions the color spectrum according to a pattern that is unique in some way but every local system of color categories also shares characteristics with the systems of other mesoamerican languages and of languages elsewhere in the world this book presents the results of the mesoamerican color survey which robert e maclaury conducted in 1978 1981 drawn from interviews with 900 speakers of some 116 mesoamerican languages the book provides a sweeping overview of the organization and semantics of color categorization in modern mesoamerica extensive analysis and maclaury s use of vantage theory reveal complex and often

surprising interrelationships among the ways languages categorize colors his findings offer valuable cross cultural data for all students of mesoamerica they will also be of interest to all linguists and cognitive scientists working on theories of categorization more generally

suttacentral has published an entirely new translation of the four pali nik \square yas by bhikkhu sujato which is the first complete and consistent english translation of these core texts this is an ebook version of bhikkhu sujato s translation of the a \square guttara nik \square ya which can also be read at suttacentral website the numbered or numerical discourses are usually known as a \square guttara nik \square ya in pali abbreviated an however the pali tradition also knows the form ekottara one up or incremental and this is the form usually found in the northern collections these collections organize texts in numbered sets from one to eleven compared to the other nik \square yas they are more oriented to the lay community the ekottarik \square gama ea in chinese is a highly unusual text which features a range of variations within itself when it comes even to basic doctrines it shares considerably less in common with the pali a \square guttara than the other collections do with their counterparts in addition there is a partial ekottarik \square gama in chinese as well as a variety of individual discourses and fragments in chinese and sanskrit this translation of a \square guttara nik \square ya was updated on march 6th 2023

this second sub collection called the middle fifty contains fifty suttas and is divided into five chapters the chapter on family heads the chapter on bhikkhus the chapter on ascetics the chapter on kings and the chapter on brahmins continuing to complete the early autobiography are the suttas mn 85 with prince bodhi and mn 100 with sa \square g \square rava in all there are five suttas that center and give historical context to the buddha the insistent repetition indicates their importance on the spurious side the suttas mn 91 and mn 92 stand out in which the buddha appears determined to show his penis with phimosis and his very long tongue with which he could clean his ears all in order to affirm that he supposedly had the legendary 32 marks of the great man a myth that apparently goes back to gilgamesh mn 95 insists on it again also surprising in mn 84 conversation at madhur \square and mn 94 with gho \square amukha the insistence on taking as master an extinct buddha in a pair of extemporaneous suttas starring strangers where the plot happens at an indeterminate time after the buddha s parinibb \square na

rainbows and exploding stars ancient greek optics and modern lasers these are but a few facets of this entertaining exploration of light in all areas of science and technology like the denizens of some brilliant ocean humans are awash in light surrounded by illuminations both natural and artificial we remain blissfully unaware of how light determines most of life s rhythms and rituals or how it dominates every field of modern science michael i sobel a professor of physics at brooklyn college has attempted no less a task than to enlighten us see how it pervades our language about the many facets of this ubiquitous phenomenon from its earliest stirrings of emotion and wonder in ancient savants to its modern applications in lasers and silicon chips his

broader objective however is to show the unity of the natural sciences by using light as a central theme as a guide along the path of light mr sobel is excellent james cornell new york times book review at long last here is a book about a technical subject that anyone can read with interest and understand the author s technical genius and communication skills are combined with excellent lucid sketches concise meaty captions and fascinating photographs jason r taylor science books and films the title says it all it is simply a magnificent dissertation on every aspect of light its lucid and attractive prose may be read for pleasure and wonder yet the book is also a reference book of authority i doubt whether any question about light cannot be answered by consulting it whether the question is about glow worms or the aurora borealis black bodies of the structure of the eye mirages or fluorescence this is a marvelous book one of the best paperbacks i have ever encountered new scientist

jewish blues presents a broad cultural social and intellectual history of the color blue in jewish life between the sixteenth and twenty first centuries bridging diverse domains such as religious law mysticism eschatology as well as clothing and literature this book contends that by way of a protracted process the color blue has constituted a means through which jews have understood themselves in ancient jewish texts the term for blue tekhelet denotes a dye that serves jewish ritual purposes since medieval times however jews gradually ceased to use tekhelet in their ritual life in the nineteenth century however interest in restoring ancient dyes increased among european scholars in the jewish case rabbis and scientists attempted to reproduce the ancient tekhelet dye the resulting dyes were gradually accepted in the ritual life of many orthodox jews in addition to being a dye playing a role in jewish ritual blue features prominently in the jewish mystical tradition in jewish magic and popular custom and in jewish eschatology blue is also representative of the zionist movement and it is the only chromatic color in the national flag of the state of israel through the study of the changing roles and meanings attributed to the color blue in judaism jewish blues sheds new light on the power of a visual symbol in shaping the imagination of jews throughout history the use of the color blue continues to reflect pressing issues for jews in our present era as it has become a symbol of jewish modernity
